Born into a magical Cree world in snowy northern Manitoba, Champion and Ooneemeetoo Okimasis are all too soon torn from their family and thrust into the hostile world of a Catholic residential school. Their language is forbidden, their names are changed to Jeremiah and Gabriel, and both boys are abused by priests. As young men, estranged from their own people and alienated from the culture imposed upon them, the Okimasis brothers fight to survive. Wherever they go, the Fur Queen--a wily, shape-shifting trickster--watches over them with a protective eye. For Jeremiah and Gabriel are destined to be artists. Through music and dance they soar.

When you Read Like a Writer (RLW) you work to identify some of

the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

### The Great Influenza BEYOND BOOKS HUB

“The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable.”

—Richard Louv, from the new edition In his landmark work *Last Child in the Woods*, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child’s healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children’s lives and the rise in obesity, attention disorders, and depression. Louv’s message has galvanized an international back-to-nature campaign to “Leave No Child Inside.” His book will change the way you think about our future and the future of our children. “[The] national movement to ‘leave no child inside’ . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a ‘green hour’ in each day. . . . The increased activism has been partly inspired by a best-selling book, *Last Child in the Woods*, and its author, Richard Louv.” —The Washington Post

“*Last Child in the Woods*, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation.” —The Nation’s Health

“This book is an absolute must-read for parents.” —The Boston Globe

Thomas Paine wrote the first part of *The Rights of Man* in 1791 as a response to the furious attack on the French Revolution by the British parliamentarian Edmund Burke in his pamphlet *Reflections on the Revolution in France*, published the previous year. Paine carefully dissects and counters Burke’s arguments and provides a more accurate description of the events surrounding the revolution of 1789. He then reproduces and comments on the “Declaration of the Rights of Man and of Citizens” promulgated by the National Assembly of France. The manuscript of *The Rights of Man* was placed with the publisher Joseph Johnson, but that publisher was threatened with legal action by the British Government. Paine then gave the work to another publisher, J. S. Jordan, and on the advice of William Blake, Paine went to France to be out of the way of possible arrest in Britain. *The Rights of Man* was published in March 1791, and was an immediate success with the British public, selling nearly a million copies. A second part of the book, subtitled “Combining Principle and Practice,” was published in February 1792. It puts forward practical proposals for the establishment of republican government in countries like Britain. *The Rights of Man* had a major impact, leading to the establishment of a number of reform societies. After the publication of the second part of the book, Paine and his publisher were charged with seditious libel, and Paine was eventually forced to leave Britain and flee to France. Today *The Rights of Man* is considered a classic of political writing and philosophy. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

The remarkable, amusing and inspiring adventures of a Canadian couple who make a year-long attempt to eat foods grown and produced within a 100-mile radius of their apartment. When Alisa Smith and James MacKinnon learned that the average ingredient in a North American meal travels 1,500 miles from farm to plate, they decided to launch a simple experiment to reconnect with the people and places that produced what they ate. For one year, they would only consume food that came from within a 100-mile radius of their Vancouver apartment. The 100-Mile Diet was born. The couple's discoveries sometimes shook their resolve. It would be a year without sugar, Cheerios, olive oil, rice, Pizza Pops, beer, and much, much more. Yet local eating has turned out to be a life lesson in pleasures that are always close at hand. They met the revolutionary farmers and modern-day hunter-gatherers who are changing the way we think about food. They got personal with issues ranging from global economics to biodiversity. They called on the wisdom of grandmothers, and immersed themselves in the seasons. They discovered a host of new flavours, from gooseberry wine to sunchokes to turnip sandwiches, foods that they never would have guessed were on their doorstep. The 100-Mile Diet struck a deeper chord than anyone could have predicted, attracting media and grassroots interest that spanned the globe. The 100-Mile Diet: A Year of Local Eating tells the full story, from the insights to the kitchen disasters, as the authors transform from megamart shoppers to self-sufficient urban

pioneers. The 100-Mile Diet is a pathway home for anybody, anywhere. Call me naive, but I never knew that flour would be struck from our 100-Mile Diet. Wheat products are just so ubiquitous, "the staff of life," that I had hazily imagined the stuff must be grown everywhere. But of course: I had never seen a field of wheat anywhere close to Vancouver, and my mental images of late-afternoon light falling on golden fields of grain were all from my childhood on the Canadian prairies. What I was able to find was Anita's Organic Grain & Flour Mill, about 60 miles up the Fraser River valley. I called, and learned that Anita's nearest grain suppliers were at least 800 miles away by road. She sounded sorry for me. Would it be a year until I tasted a pie?

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally

killed them on the night of November 15, 1959, is the seminal work of the “new journalism.” Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. “I thought he was a very nice gentleman,” he says of Herb Clutter. “Soft-spoken. I thought so right up to the moment I cut his throat.” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers’ flight, Capote’s account is so detailed that the reader comes to feel almost like a participant in the events.

This book argues for the importance of literature studies using the historical debate between the disinterested disciplines (“art for art’s sake”) and utilitarian or productive disciplines. Forgoing the traditional argument that literature is a unique spiritual resource, as well as the utilitarian thought that literary pedagogy promotes skills that are relevant to a post-industrial economy, Guiney suggests that literary pedagogy must enable mutual access between the classroom and the outside world. It must recognize the need for every human being to become a conscious producer of culture rather than a consumer, through an active process of literary reading and writing. Using the history of French curricular reforms as a case study for his analysis, Guiney provides a contextualized redefinition of literature’s social value.

Pulitzer prize-winner Chris Hedges charts the dramatic and disturbing rise of a post-literate society that craves fantasy, ecstasy and illusion. Chris Hedges argues that we now live in two societies: One, the minority, functions in a print-based, literate world, that can cope with complexity and can separate illusion from truth. The other, a growing majority, is retreating from a reality-based world into one of false certainty and magic. In this “other society,” serious film and theatre, as well as newspapers and books, are being pushed to the margins. In the tradition of Christopher Lasch’s *The Culture of Narcissism* and Neil Postman’s *Amusing Ourselves to Death*, Hedges navigates this culture — attending WWF contests as well as Ivy League graduation ceremonies — exposing an age of terrifying decline and heightened self-delusion.
