The Art of War Church Publishing, Inc.

This book claims a political value for olfactory artworks by situating them squarely in the contemporary moment of various forms of political resistance. Each chapter presents the current research and art practices of an international group of artists and writers from the United States, Canada, France, Germany, Switzerland, Thailand, Sweden, and the Netherlands. The book brings together new thinking on the potential for olfactory art to critique and produce modes of engagement that challenge the still-powerful hegemonic realities of the twenty-first century, particularly the dominance of vision as opposed to other sensory modalities. The book will be of interest to scholars working in contemporary art, art history, visual culture, olfactory studies, performance studies, and politics of activism.

Contemporary Art in Heritage Spaces considers the challenges that accompany an assessment of the role of contemporary art in heritage contexts, whilst also examining ways to measure and articulate the impact and value of these intersections in the future. Presenting a variety of perspectives from a broad range of creative and cultural industries, this book examines case studies from the past decade where contemporary art has been sited within heritage spaces. Exploring the impact of these instances of intersection, and the thinking behind such moments of confluence, it provides an insight into a breadth of experiences – from curator, producer, and practitioner to visitor – of exhibitions where this juncture between contemporary art and heritage plays a crucial and critical role. Themes covered in the book include interpretation, soliciting and measuring audience responses, tourism and the visitor economy, regeneration agendas, heritage research, marginalised histories, and the legacy of exhibitions. Contemporary Art in Heritage Spaces will be essential reading for academics and students engaged in the study of museum and heritage studies and contemporary art around the globe. Museum practitioners and artists should also find much to interest them within the pages of this volume. Olfactory Art and the Political in an Age of Resistance Routledge

This Chinese treatise on war was written by Sun Tzu in the 6th century B.C. Each one of the 13 chapters is devoted to a different aspect of warfare, making it the definitive work on military strategies and tactics of its time. Studied by generals from Napoleon to Rommel, it is still one of the most influential works on the subject and is required reading in most military academies around the world. Although it was meant to be a practical guide to warfare in the age of chariots, this seminal work on the philosophy of successful leadership is as applicable to contemporary business as it is to war, and has become increasingly popular among today's corporate and political leaders. This deluxe edition of this classic work, includes a 21st century study guide filled with practices and exercises that will help you dig deep into the inherent wisdom of this powerful text.

Now available in a deluxe keepsake edition! A Time Best YA Book of All Time (2021) Run away to the Metropolitan Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-winning novel *From the Mixed-Up Files of Mrs. Basil E. Frankweiler*. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort-she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

With a focus on socially engaged art practices in the twenty-first century, this book explores how artists use their creative practices to raise consciousness, form communities, create change, and bring forth social impact through new technologies and digital practices. Suzanne Lacy's Foreword and section introduction authors Anne Balsamo, Harrell Fletcher, Natalie Loveless, Karen Moss, and Stephanie Rothenberg present twenty-five in-depth case studies by established and emerging contemporary artists including Kim Abeles, Christopher Blay, Joseph DeLappe, Mary Beth Heffernan, Chris Johnson, Rebekah Modrak, Praba Pilar, Tabita Rezaire, Sylvain Souklaye, and collaborators Victoria Vesna and Siddharth Ramakrishnan. Artists offer firsthand insight into how they activate methods used in socially engaged art projects from the twentieth century and incorporated new technologies to create twenty-first century, socially engaged, digital art practices. Works highlighted in this book span collaborative image-making, immersive experiences, telematic art, time machines, artificial intelligence, and physical computing. These reflective case studies reveal how the artists collaborate with participants and communities, and have found ways to expand, transform, reimagine, and create new platforms for meaningful exchange in both physical and virtual spaces. An invaluable resource for students and scholars of art, technology, and new media, as well as artists interested in exploring these intersections.

Rules for Focused Success in a Distracted World Routledge

Mexican culture has long been the object of scholarly interest and popular curiosity, notably since the 1910 Revolution and most recently in the 1990 Metropolitan Museum of Art exhibit "Mexico: Splendors of Thirty Centuries". During these eight decades in the evolution of the modern Mexican nation, shifting relations of power have constantly met with voices of opposition that have challenged the national vision of progress and unity. *Textured Lives* explores some of these cracks in the Mexican national edifice by examining the works of women in literature and the arts, with focus on individuals who represent crucial phases in Mexico's cultural history: Frida Kahlo and postrevolutionary nationalism, Rosario Castellanos and the promises of institutionalized revolution, Elena Poniatowska and the legacy of 1968, and Angeles Mastretta and the "golden age" of the oil boom. Schaefer argues that exploring the social context of cultural representation highlights the tensions between master narratives and these women's transgressive forays into those spaces of power. Combining literary theory, cultural analysis, gender study, and theories of artistic representation, her book embraces painting, literary journalism, the epistolary novel, and autobiographical narrative to question the traditional forms of these genres as well as to debate the boundaries between the self and the national identity.

"Hosts of all kinds, this is a must-read!" --Chris Anderson, owner and curator of TED From the host of the New York Times podcast Together Apart, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. *The Art of Gathering* will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them.

This book provides, from a critical perspective, a first contact with the key debates and authors who, over the last 2,500 years, have tried to define, study and evaluate the arts in the west, as well as tell their stories so as to highlight Europe's outstanding achievements and supposed civilizational mission. It shows and deconstructs how the western theories and stories on different media - theatre, sculpture, literature, painting, photography, performance art, contemporary art, etc. - repeat and vary certain fixed ideas in diverse disciplines - from philosophy to media studies - so as to deal with and often repress arts' power. By drawing on texts from recent picture and image theory, as well as on present-day Amerindian authors, anthropologists and philosophers, this introductory panoramic survey argues for the need to question the power structure inherent in Eurocentric art discourses and to decolonise art studies, using Brazil's arts, its theory and history

as a case study to do so.

Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of Give and Take). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep--spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In *Deep Work*, author and professor Cal Newport flips the narrative

on impact in a connected age. Instead of arguing distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, *Deep Work* takes the reader on a journey through memorable stories--from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air--and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. *Deep Work* is an indispensable guide to anyone seeking focused success in a distracted world.
