Grammar consists of many things, and one of the more important is punctuation. It is like the Rosetta Stone, providing the key to how writers want a reader to interpret what they wrote. Punctuation is even present when we speak. A slight pause is similar to a comma, a longer pause akin to a semicolon, and a stop equals a period. Question marks and exclamation points can be heard in the cadence of a person's speech pattern and where the emphasis is placed and on which words. Almost all punctuation marks are represented in everyday speech, and therein lies the key to great dialogue—knowing how to use punctuation correctly with dialogue. There are some writers who are masters at it. Elmore Leonard was one of the best. Read his books, or listen to a few of the movies made from his books, and you'll see a genius's work. This book explains how to use punctuation in an easy-to-grasp manner.

Do the words "What's for dinner?" make you cringe? Are you tired of one-word answers from the teenager in the house? These hilarious stories are a laugh-out-loud look at everyday life. From "A construction company...what were we thinking?" to "My Big, Fat Tongue," you won't be able to put this one down. *Because I Said So!* by comedy author Michelle Hoppe is a look into the ups and downs of raising a family, while attempting to become an author. Take a peek into the family life of the Hoppe clan and discover how Michelle turned everyday life into delightfully funny stories. Michelle was blessed with the ability to view life through rose tinted glasses. Unlike Claire Tomalin, who said "My life was a sort of series of random disasters," Michelle's life, with her twisted sense of humor and a madcap home crew, is more a series of random "by the seat of your pants motherhood". Growing up, Michelle loved to read books by Erma Bombeck; books like *If Life is a Bowlful of Cherries*, *What Am I Doing in the Pits* and *Motherhood* taught her to look for the humor in life. Michelle's favorite Erma quote "When humor goes, there goes civilization!" seemed like a call to action, so this comedy autobiography is her contribution to the continuation of mankind, oops...personkind! This hilarious book contains humor about family life, motherhood, and parenting, and is sure to keep you laughing from beginning to end.

Because I Said So! PennWell Books

A Kirkus Reviews Best Book of the Year The witty and exuberant New York Times bestselling author and record-setting Jeopardy! champion Ken Jennings relays the history of humor in "lively, insightful, and crawling with goofy factlings," (Maria Semple, author of *Where'd You Go Bernadette*)—from fart jokes on clay Sumerian tablets to the latest Twitter gags and Facebook memes. Where once society's most coveted trait might have been strength or intelligence or honor, today, in a clear sign of evolution sliding off the trails, it is being funny. Yes, funniness. Consider: Super Bowl commercials don't try to sell you anymore; they try to make you laugh. Airline safety tutorials—those terrifying laminated cards about the possibilities of fire, explosion, depressurization, and drowning—have been replaced by joke-filled videos with multimillion-dollar budgets and dance routines. Thanks to social media, we now have a whole Twitterverse of amateur comedians riffing around the world at all hours of the day—and many of them even get popular enough online to go pro and take over TV. In his "smartly structured, soundly argued, and yes—pretty darn funny" (Booklist, starred review) *Planet Funny*, Ken Jennings explores this brave new comedic world and what it means—or doesn't—to be funny in it now. Tracing the evolution of humor from the caveman days to the bawdy middle-class antics of Chaucer to Monty Python's game-changing silliness to the fast-paced meta-humor of *The Simpsons*, Jennings explains how we built our humor-saturated modern age, where lots of us get our news from comedy shows and a comic figure can even be elected President of the United States purely on showmanship. "Fascinating, entertaining and—I'm being dead serious here—important" (A.J. Jacobs, author of *The Year of Living Biblically*), *Planet Funny* is a full taxonomy of what spawned and defines the modern sense of humor.

Because I Said So Penguin

Yes, there are times when it's appropriate to reason with your child, to patiently and eloquently explain why he or she needs to do as you ask. You might present convincing arguments like "Because it makes you strong"; "Because it will keep you safe"; "Because it's good for you"; "Because it's bad for you." But there are times when the only thing that really makes sense is . . . "Because I said so!!" This book is a hilarious, honest romp through motherhood—the joys, the sleeplessness, the frazzled days, the unending carpooling, the in-house refereeing, the dieting (yeah, right), the worrying—and did we say, the joy? Here's what some of that joy looks like—with excerpts straight from the book: • I tried to do the Buns of Steel video, but quickly realized that it wasn't intended for people who have buns of pudding. • I felt like my head might explode. I kind of hoped it would so I could take a nice, peaceful ambulance ride out of there. • I was a little at a loss. I mean, those parenting books don't tell you how to break up a fight over an imaginary friend. • Moms aren't allowed to get sick more than one day a year. Single moms aren't allowed to get sick ever. • Before you have children you can't imagine yourself saying things like "Don't put chocolate milk in your pants," "Take the hot dog out of your nose," or "Because I said so!" If you're a mom-to-be or a mom in the trenches, you'll love knowing that you're not the only one out there who sometimes just figures it out as you go along—and

sometimes can't figure it out at all. But in the end, Dawn has these words of encouragement just for you: "Enjoy this time. Even when they make you crazy, these are the best days of your life." And they really are, aren't they?

When was the last time you listened to someone, or someone really listened to you? "If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor." - Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** "An essential book for our times." -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening.
