Comics have gone from "scourge of the classroom" to legitimate teaching tools, and the Common Core State Standards for scholastic achievement now explicitly

recommend their use in the classroom. Reading With Pictures: Comics That Make Kids Smarter unites the finest creative talents in the comics industry with the nation's leading experts in visual literacy to create a game-changing tool for the classroom and beyond. This full-color volume features more than a dozen short stories (both fiction and nonfiction) that address topics in Social Studies, Math, Language Arts, and Science, while offering an immersive textual and visual experience that kids will enjoy. Highlights include George Washington: Action President by Fred Van Lente and Ryan Dunlavey, Doctor Sputnik: Man of Science

by Roger Langridge, The Power of Print by Katie Cook, and many more. Includes a foreword by Printz and Eisner Award-winning author Gene Luen Yang (American Born Chinese, Boxers and Saints). A downloadable Teachers' Guide includes standards-correlated lesson plans customized to each story, research-based justifications for using comics in the classroom, a guide to establishing best classroom practices, and a comprehensive listing of educational resources. **Tough Riddles for Smart Kids** Knopf A new eye-opener on how we can make better decisions—by the author of Gut Feelings In this age of big data we often

trust that expert analysis—whether it’s about next year’s stock market or a person’s risk of getting cancer—is accurate. But, as risk expert Gerd Gigerenzer reveals in his latest book, *Risk Savvy*, most of us, including doctors, lawyers, and financial advisors, often misunderstand statistics, leaving us misinformed and vulnerable to exploitation. Yet there’s hope. In *Risk Savvy*, Gigerenzer gives us an essential guide to the science of good decision making, showing how ordinary people can make better decisions for their money, their health, and their families. Here, Gigerenzer delivers the surprising conclusion that the best results often come from considering less information and listening to your gut.

Daredevil Research: Re-creating Analytic Practice gathers together ten research projects that seek to transform thinking about analytic practice and the construction of research knowledge. By experimenting with alternative models of representation unconstrained by the weight of traditional research protocols, the authors create multiple spaces for

imagining how to differently identify issues for inquiry, select modes of analysis, and inscribe « data into transmittable form. At once a production of research knowledge and a conceptual field for meaning-making, Daredevil Research suggests the possibilities of analytic practice in imaginative, independent space.

#1 NEW YORK TIMES BEST SELLER • At last, a book that shows you how to build—design—a life you can thrive in, at any age or stage Designers create worlds and solve problems using design thinking. Look around your office or home—at the tablet or smartphone you may be holding or the chair you are sitting in. Everything

in our lives was designed by someone. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the possibility of surprise.

Daredevil - Volume 13 Penguin

What comes to mind when you think about superheroes? Strength, bravery, and heroism are common answers. However, superheroes do not only have physical strength, but they also have mental

strengths and skills. Superheroes tend to have intelligence and detection skills which allow them to develop other skills. In this analysis of superhero literacy aimed at students, the connection between superhero media and larger theories of literacy are explored. The author uses six superhero television shows to show how literacy is portrayed in superhero media and how it reflects and shapes cultural ideas of literacy. The shows covered are Arrow, The Flash, Gotham, Jessica Jones, Luke Cage and Daredevil.
