The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil’s name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven’s story in Concrete Rose, Angie Thomas’s powerful prequel to The Hate U Give.

Can be read as a standalone.I flew across the country with one goal in my mind.... finish my book.... and maybe lick the wounds of my shredded heart. My editor was screaming for the first draft, my agent was nagging for teasers, and my publisher was reminding me that my strict deadline was only months away. However, there was a dilemma. I had writer's block. Not just a little spanner thrown into the works writer's block. Writers. Block. As in staring at the blinking light on my Mac monitor for days begging for a stream of words to magically appear on the screen. This was not my first rodeo, though. I am a well known and respected author with a New York Times best-selling status to my pen name. I just can't write about romance, flowers, and butterfly kisses when all I want to pen is my own rendition of Basic Instinct. Ice picks to the heart, forks in eyes, and knees being slammed into assholes crotches are not solid key pointers for a sweet romance novel. Just as I was about to throw down the gauntlet and call in my defeat, I spotted him. The bearded, tattooed man who lives in the glasshouse next door. He was in a venereal, lust filled twist with a pretty blonde who had buxom bosoms and legs that went for miles. I should have looked away. I should have respected his privacy. I should not have opened up my notepad and took detailed dot points on his technique. However, every precise thrust of his hips, snippets of his well-carved physique, and droplets of sweat running down his glistening torso had words flowing quicker than I was able to write them. He was my inspiration, my muse, my next book alpha male. My plan was working. The words were flowing, and they were magnificent, by far my best work to date. My editor was in love with the first half of my draft, my agent was using snippets of the first two chapters to secure big endorsement deals, and my publicist was talking about a new three book deal. Everything was perfect.... until the bearded stranger spotted me spying on him.Adult content, sexual references, recommended for 18+ readers.

My next door neighbor Parker Jax is not my type. He’s covered in tats, rides a motorcycle, and his parties keep me up all night. The fact he’s sexy as sin doesn’t change the fact we are oil and water. I’m a quiet artist. He’s a rowdy marine. I’ve got a broken heart. I’m convinced he doesn’t have a heart at all. Thankfully, my bad-boy neighbor is on leave from the Marines for only thirty days. But then the jerk has to go and show me that he has a soft side beneath all those hard muscles. He actually leaves his own party to help me, and he didn’t even have to. Fantastic. Now I owe him. I’m not worried, though. What are the chances he’ll need me to do anything before the month is up? But when a woman shows up with a kid at her side, knocking on Parker’s door, it turns out those chances are pretty good...

Her Marine Next Door Camille Caraway

A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Jeannette Walls was the second of four children raised by anti-institutional parents in a household of extremes.

An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when

Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

Piper: I showed up for cheerleading camp excited and breathless, but everything got screwed up when it came to sleeping arrangements. They were short on housing, so me and my best friend Romy have to share a cabin with two gorgeous, older men with rippling six packs, broad shoulders, and all-too-knowing blue eyes ... who also happen to be our camp chaperones. Stan: I just want to say that I offered to chaperone for Camp Cheer with good intentions. But when me and my best friend George show up to find that we’ll be bunking with a pair of nubile teenage girls, let’s just say good intentions fly out the window ... as the two women show us what it means to be tempted by utter filth. This is a follow-up to *Babysitter of Sin*. In this book, the saucy girl who lives down the block from Tracy is back! Piper was rumored to be hooking up with her guardian, but are the rumors true, or all they all hogwash? Read and find out, but be sure to bring a tall glass of lemonade because this story will have you sweating as you get a look at the utter debauchery that takes place at Camp Cheer. No cheating, no cliffhangers, and always a HEA for my readers.
