How do today's most successful tech companies—Amazon, Google, Facebook, Netflix, Tesla—design, develop, and deploy the products that have earned the love of literally billions of people around the world? Perhaps surprisingly, they do it very differently than the vast majority of tech companies. In *INSPIRED*, technology product management thought leader Marty Cagan provides readers with a master class in how to structure and staff a vibrant and successful product organization, and how to discover and deliver technology products that your customers will love—and that will work for your business. With sections on assembling the right people and skillsets, discovering the right product, embracing an effective yet lightweight process, and creating a strong product culture, readers can take the information they learn and immediately leverage it within their own organizations—dramatically improving their own product efforts. Whether you're an early stage startup working to get to product/market fit, or a growth-stage company working to scale your product organization, or a large, long-established company trying to regain your ability to consistently deliver new value for your customers, *INSPIRED* will take you and your product organization to a new level of customer engagement, consistent innovation, and business success. Filled with the author's own personal stories—and profiles of some of today's most-successful product managers and technology-powered product companies, including Adobe, Apple, BBC, Google, Microsoft, and Netflix—*INSPIRED* will show you how to turn up the dial of your own product efforts, creating technology products your customers love. The first edition of *INSPIRED*, published ten years ago, established itself as the primary reference for technology product managers, and can be found on the shelves of nearly every successful technology product company worldwide. This thoroughly updated second edition shares the same objective of being the most valuable resource for technology product managers, yet it is completely new—sharing the latest practices and techniques of today's most-successful tech product companies, and the men and women behind every great product.

You've researched your character extensively, tailored her to your audience, sketched hundreds of versions, and now you lean back content as you gaze at your final character model sheet. But now what? Whether you want to use her in an animated film, television show, video game, web comic, or children's book, you're going to have to make her perform. How a character looks and is costumed starts to tell her story, but her body language reveals even more. *Character Mentor* shows you how to pose your character, create emotion through facial expressions, and stage your character to create drama. Author Tom Bancroft addresses each topic with clear, concise prose, and then shows you what he really means through commenting on and redrawing artwork from a variety of student "apprentices." His assignments allow you to join in and bring your drawing to the next level with concrete techniques, as well as more theoretical analysis. *Character Mentor* is an apprenticeship in a book. Professional artists from a variety of media offer their experience through additional commentary. These include Marcus Hamilton (Dennis the Menace), Terry Dodson (X-Men), Bobby Rubio (Pixar), Sean "Cheeks" Galloway (Spiderman animated), and more. With a foreword by comicbook artist Adam Hughes, who has produced work for DC, Marvel Comics, Lucasfilm, Warner Bros. Pictures, and other companies.

Denyse Schmidt: Modern Quilts, Traditional Inspiration Createspace Independent Publishing Platform Teachers, use this workbook for warm-ups, full class assignments, homework, and substitute/guest teacher days in English classes, math classes, art classes, or any classes in which you might use writing and numbers and art to support cross-curricular learning and instruction. Discover the creativity this haiku starter journal will unleash in your students! In this semester-length workbook, students will explore their emotional responses as they complete unique poems with first line prompts provided on each page and space to include a sketch and reflect on their inspiration. The first line of 5 syllables is provided to inspire a thought or memory. Students will complete the haiku on the next two lines with 7 syllables on the middle line and 5 syllables on the last line. There's no need to consider rhyme at all. Some of the starters are quite silly, but some may take students to poignant places. No need to worry about punctuation or making each line a complete sentence; the whole poem might be a single seventeen-syllable sentence. If a student's last line surprises them, they've captured a more complex essence of haiku! But you don't have to be a student or teacher to enjoy this workbook! If you like crossword puzzle books or Sudoku books, add this haiku starter book to your list. Keep one handy in your vehicle, backpack, purse, bathroom . . . so it's available anytime you might want to get your mind off of, well, anything! Once you get the swing of creating haiku poems, you'll want to check out "Haikus Can Amuse! 366 Haiku Starters" for an entire Leap Year's worth of haiku starter prompts! Haikus can amuse Discipline your chatterbox Express succinctly!

Cursive Handwriting Workbook for Teens: Learning Cursive with Inspirational Quotes for Young Adults, 3 in 1 Cursive Tracing Book Including over 130 Pages of Exercises with Letters, Words and Sentences Recommended by teachers It is important to know, that neuroscientists believe that learning cursive is developmentally beneficial for the human brain, at any stage. Writing by hand, especially in cursive, is vital in training the brain to practice and, thus improve, more skills and senses all at once: hand-eye coordination, patience, self-control, and a sense of involvement and ownership. All this, while learning more about the English language. In this workbook, you will find various writing exercises in over 130 pages. The lines in the book are wide/legal ruled with the measurements: 3/8", 9mm distance between the top line and the bottom line, with a dotted midline. The letter size is customized for teenagers and young adults alike, to help with learning cursive writing on legal ruled lines. What's inside? Part 1 starts with the Alphabet where writing letters in both lowercase and capital forms are practiced through tracing and connecting the dots. Each letter is presented with directional arrows to guide the hand movements. This book has plenty of space with a whole page for practicing each letter. Part 2 and 3 moves on to writing inspirational quotes in cursive from some of the greatest thinkers, leaders and artists throughout history like: Leonardo da Vinci, Abraham Lincoln, Socrates, Queen Victoria, Voltaire and many others. There are two worksheets for each quote. You will gain thorough practice in writing words first, which are extracted from the quote with a traceable cursive font. The next step moves on to writing the entire sentence from the quote multiple times. Go to the top-right of the page and click "Add to Cart"

Sometimes, dreams do come true. There's a lot of advice out there about how to pursue your goals,

but sometimes all a dreamer needs to keep going is a true story of a dream becoming reality: proof that lows are a normal part of the process, and hope that all your hard work might still have a chance of paying off. The Little Book of Big Dreams is filled with true stories of dreamers just like you who dared to reach for the stars and actually go for the things they wanted most in life—but the most important story in this book is yours. Each uplifting tale in these pages is meant to inspire you along your dream journey, not only helping you keep going when things get hard but also reminding you that obstacles don't mean you're doing this wrong—they mean you're on your way. The dreamers in this book include Oscar winner Kristen Anderson-Lopez, Disney producer Don Hahn, Penske College founder D'Wayne Edwards, Hamilton cast member Seth Stewart, Black Girls Code founder Kimberly Bryant, actor and filmmaker Justin Baldoni, and more.

★ "This amazing outpouring of strength and honesty offers inspirational personal accounts for every reader who wonders what to do when everything seems impossible." --Booklist, starred review A 2019 Texas Topaz Reading List Selection A Junior Library Guild Selection Hope is a decision, but it is a hard one to recognize in the face of oppression, belittlement, alienation, and defeat. To help embolden hope, here is a powerhouse collection of essays and personal stories that speak directly to teens and all YA readers. Featuring Angie Thomas, Marie Lu, Nicola Yoon, David Levithan, Libba Bray, Jason Reynolds, Renée Ahdieh, and many more! "The hope of a secure and livable world lies with disciplined nonconformists who are dedicated to justice, peace and brotherhood."--Rev. Martin Luther King, Jr. We all experience moments when we struggle to understand the state of the world, when we feel powerless and--in some cases--even hopeless. The teens of today are the caretakers of tomorrow, and yet it's difficult for many to find joy or comfort in such a turbulent society. But in trying times, words are power. Some of today's most influential young adult authors come together in this highly personal collection of essays and original stories that offer moments of light in the darkness, and show that hope is a decision we all can make. Like a modern day Chicken Soup for the Teenage Soul or Don't Sweat the Small Stuff for Teens, Hope Nation acknowledges the pain and offers words of encouragement. Authors include: Atia Abawi, Renee Ahdieh, Libba Bray, Howard Bryant, Ally Carter, Ally Condie, Christina Diaz Gonzales, Gayle Forman, Romina Garber, I. W. Gregario, Kate Hart, Bendan Kiely, David Levithan, Alex London, Marie Lu, Julie Murphy, Jason Reynolds, Aisha Saeed, Nic Stone, Angie Thomas, Jenny Torres Sanchez, Jeff Zentner, and Nicola Yoon. The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.
