A new heroine hits the urban fantasy scene in this spectacular series about an exorcist by New York Times bestselling author, Lilith Saintcrow. When things go bump in the night, I bump back. Hard. Every city has a hunter -- someone brave enough, tough enough, and fearless enough to take on the nightside. Santa Luz is lucky. They've got Jill Kismet. With a hellbreed mark on her wrist and a lot of silverjacket ammo, she's fully trained and ready to take on the world. Except the world isn't the problem. The problem is hellbreed thinking they can run her town, and a clutch of nightmarish

murders. It looks like a rogue Were is killing his way through Santa Luz, and he's got help. So does Jill--but help isn't what this new hunter needs. She needs a miracle. But miracles are in short supply. Better stick with more ammo... Welcome to the Night Shift...  The Cirque de Charnu has come. They will clean out the demons and the suicides, and move on. As long as they stay within the rules, Jill Kismet can't deny them entry. But she can watch--and if they step out of line, she'll send them packing. When Cirque performers start dying grotesquely, Kismet has to find out why, or the fragile truce won't hold and her entire city will become a carnival of horror. She also has to play the resident hellbreed power against the Cirque to keep them in line, and find out why ordinary people are needing exorcisms. And then there's the murdered voodoo practitioners, and

the zombies. An ancient vengeance is about to be enacted. The Cirque is about to explode. And Jill Kismet is about to find out some games are played for keeps... Urban Enemies Penguin UK  
Musical Theatre: A History is a new revised edition of a proven core text for college and secondary school students - and an insightful and accessible celebration of twenty-five centuries of great theatrical entertainment. As an educator with extensive experience in professional theatre production, author John Kenrick approaches the subject with a unique appreciation of musicals as both an art form and a business. Using anecdotes, biographical profiles, clear definitions, sample scenes and select illustrations, Kenrick focuses on landmark musicals, and on the extraordinary talents and business innovators who have helped musical theatre evolve from its roots in the dramas of ancient Athens all the way to the latest hits on Broadway and London's West End. Key improvements to the second edition: · A new

foreword by Oscar Hammerstein III, a critically acclaimed historian and member of a family with deep ties to the musical theatre, is included. The 28 chapters are reformatted for the typical 14 week, 28 session academic course, as well as for a two semester, once-weekly format, making it easy for educators to plan a syllabus and reading assignments. To make the book more interactive, each chapter includes suggested listening and reading lists, designed to help readers step beyond the printed page to experience great musicals and performers for themselves. A comprehensive guide to musical theatre as an international phenomenon, *Musical Theatre: A History* is an ideal textbook for university and secondary school students.

#### Working for the Devil

Moon Shadow Feral House  
Bella A pact made. Two orphans who vowed to never part. I was selfish-for once, I had to be. The last time I saw Callum he was standing at the dormer window as I sat in the back seat of a car. His dark eyes foreign to me. The hatred that radiated from his glare shot through me with more force than a silver bullet. In a matter of minutes he had become a stranger. No longer my best friend. He was now a boy with a hollow heart who was headed down a dark path. A path I knew I'd never cross again. Or, so I thought. Callum We had a deal-always stay together. The day Bella left, I vowed I would find her. And when I did, she would feel what I felt as I watched her pull away into a new life, with a new family. Leaving me behind to endure a life that was wrapped inside the hands of a monster. It's been twelve years, but I've finally found her. Now it's time for her to bask in the darkness she's created inside of me.

Flesh Circus Penguin  
From Canada's new queen of suspense, another hugely entertaining supernatural thriller that will have you on the edge of your seat.

Prepare to be enchanted . . . Forget the cackling green hag in *The Wizard of Oz*, forget Samantha from *Bewitched*. Real witches are nothing, NOTHING like this. For years real witches have hidden their powers, afraid of being persecuted. They have integrated so well into the community, you could have a witch living right next door and never know about it. Take Paige, for instance, whom we first met in Kelley Armstrong's novel *Stolen*. Just an ordinary twenty-something who runs her own website design company, worries about her weight and wonders if she'll ever find a boyfriend. Okay, so she's leader of the American Coven and guardian of Savannah, the teenage daughter of a black witch. Really, life is ordinary. But then a telekinetic half-demon, Leah O'Donnell, shows up to fight for custody of Savannah. And although Paige is ready for her, she's not quite so prepared for the team of supernaturals that Leah brings with her, including a powerful sorcerer who claims to be Savannah's father. When all hell breaks loose -- literally -- and Paige is accused of witchcraft, Satanism and

murder, the Coven, fearing exposure, abandons her. Cut off from her friends, Paige is forced against her better judgment to accept the help of a young sorcerer lawyer. And she quickly comes to realize that keeping Savannah could mean losing everything else. Breathtakingly thrilling, hip and funny, this new novel is another page-turning triumph from an author who is going from strength to strength. "I had a feeding frenzy on my front lawn, an unconscious paranormal investigator on my stairs, and, somewhere out there, an entire Cabal special projects team devoted to ruining my life." -- from Dime Store Magic The Marvel Universe Bloomsbury Publishing

Pynchon's *Sound of Music* is dedicated to cataloging, exploring, and interpreting the manifold manifestations of music in Thomas Pynchon's work. An original mix of close and distant readings, this monograph employs a variety of disciplines-- from literary studies and musicology to philosophy, media theory, and history-- to explain Pynchon through music and music through Pynchon. Encyclopedic and eclectic

in its approach, Pynchon's *Sound of Music* discusses the author's use of instruments such as the kazoo, harmonica, and saxophone and embarks on close readings of the most salient and musically tantalizing passages. Zooming out to a bird's eye view, Christian Hänggi puts Pynchon's historical musical references and allusions into perspective to trace the trends and tendencies in the development of the author's interest in music. A treasure trove for fans and an invaluable source for future scholarship, this book includes the Pynchon Playlist, a catalog of over 900 musical references in Pynchon's oeuvre, and an exhaustive index of more than 700 appearances of musical instruments. By his early thirties, Paul Allen was a world-famous billionaire--and that was just the beginning. In 2007 and 2008, *Time* named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His

passion, curiosity, and intellectual rigor-- combined with the resources to launch and support new initiatives-- have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this long-awaited memoir, Allen explains how he has solved problems, what he's learned from his many endeavors--both the triumphs and the failures-- and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

Western music reached China nearly four centuries ago, with the arrival of Christian missionaries, yet only

within the last century has Chinese music absorbed its influence. As China and the West demonstrates, the emergence of “Westernized” music from China—concurrent with the technological advances that have made global culture widely accessible—has not established a prominent presence in the West. China and the West brings together essays on centuries of Sino-Western musical exchange by musicologists, ethnomusicologists, and music theorists from around the world. It opens with a look at theoretical approaches of prior studies of musical encounters and a comprehensive survey of the intercultural and cross-cultural theoretical frameworks—exoticism, orientalism, globalization, transculturation, and hybridization—that inform these essays. Part I focuses on the actual encounters between Chinese and European musicians, their instruments and institutions, and the compositions inspired by these encounters, while Part II examines theatricalized and mediated East-West cultural exchanges, which often drew on

stereotypical tropes, resulting in performances more inventive than accurate. Part III looks at the musical language, sonority, and subject matters of “intercultural” compositions by Eastern and Western composers. Essays in Part IV address reception studies and consider the ways in which differences are articulated in musical discourse by actors serving different purposes, whether self-promotion, commercial marketing, or modes of nationalistic—even propagandistic—expression. The volume’s extensive bibliography of secondary sources will be invaluable to scholars of music, contemporary Chinese culture, and the globalization of culture.

The book’s central theme is GUILT: how it’s a uniquely human idea, and whether this raises us higher or drags us lower than other animals; how guilt is disabling and why individuals and societies tend to scapegoat; how the act of blaming the enemy and slaying him is history’s propulsive force; and my miraculous ability to redeem others by absorbing guilt from them.
