A Marquis sets out to seduces a society matchmaker in a Regency romance with a mix of “the supernatural, a dash of

glamour, and multiple layers of scandal” (Publishers Weekly). With her psychic talents, matchmaker Sophie Reynard has helped plenty of highborn friends meet their perfect mate. But as the unrecognized daughter of an Earl, she sees no future in falling in love with an

aristocrat. And yet, all the good sense in the world can't stop her from succumbing to one evening of anonymous passion when a dashing Marquis saves her from drowning in a Venice canal. Nicholas Tenbury, Marquess of Ancroft, knows nothing of Sophie's lineage. He knows only that the enchanting beauty captured his heart in one night and then fled, leaving no trace of her identity. But when he seeks answers from London's finest matchmaker, he finds none other than the woman herself—stubbornly refusing to acknowledge the attraction they share. Now the enamored Marquess has no choice but to sway Sophie with seduction.

A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on “sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind

of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth's thinking. In them he articulates a new vision that he calls "dark ecology," which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed "Uncivilization" manifesto, asks hard questions about how we've lived and how we should live.

A wickedly smart, funny, and irresistibly off-kilter account of an improbable thousand-mile journey on foot into the heart of modern Florida, the state that Russell calls "America Concentrate." In the summer of 2016, Kent Russell--broke, at loose ends, hungry for adventure--set off to walk across Florida. Mythic, superficial, soaked in contradictions, maligned by cultural elites, segregated from the South, and literally vanishing into the sea, Florida (or, as he calls it: "America Concentrate") seemed to Russell to embody America's divided soul. The journey, with two friends intent on filming the ensuing mayhem, quickly reduces the trio to filthy drifters pushing a shopping cart of camera equipment.

They get waylaid by a concerned citizen bearing a rifle; buy cocaine from an ex-wrestler; visit a spiritual medium. The narrative overflows with historical detail about how modern Florida came into being after World War II, and how it came to be a petri dish for life in a suddenly, increasingly diverse new land of minority-majority cities and of unrivaled ethnic and religious variety. Russell has taken it all in with his incomparably focused lens and delivered a book that is both an inspired travelogue and a profound rumination on the nation's soul--and his own. It is a book that is wildly vivid, encyclopedic, erudite, and ferociously irreverent--a deeply ambivalent love letter to his sprawling, brazenly varied home state.

Joan Clark's *An Audience of Chairs* opens with Moranna MacKenzie living alone in her ancestral Cape Breton farmhouse, waging a war with the symptoms of bipolar disorder and grieving the loss of her two daughters, taken from her over thirty years previously. There are few people remaining in her life, as Moranna cannot help but tax the patience of nearly everyone she encounters. Her long-suffering brother Murdoch has her best interests at heart, though he is fatigued by her enormous needs and pressured by his ambitious wife to invest less time in her. Pastor Andy politely sloughs off the peculiarly intelligent yet unpalatable sermons Moranna pens for him. Her neighbour Lottie knows what it is to be an eccentric and can be counted on to come through in a pinch. The local

RCMP constabulary smooths over her legal scrapes. And her lover Bun, who lives with her when not working on the ferries between Cape Breton and Newfoundland, knows how to give her a wide berth on her “foul weather” days. Thanks to the assistance of these sometimes reluctant guardian angels, as well as to the carefully planned inheritance left by her father (not to mention her own sheer ingenuity), Moranna has managed to get by all these years despite small-town gossips and tormenting youths. Through a series of flashbacks, we learn more about the devastating effects of Moranna’s mental illness on her life and that of her family. But *An Audience of Chairs* also gives us a glimpse into the mind of a true iconoclast and wild spirit, who has

managed despite overwhelming odds to keep hope alive. Of *An Audience of Chairs*, Quill and Quire said: “Elegantly written and deeply grounded in place, this moving, compassionate novel is far more than a story of mental illness. Moranna’s quest is for peace, joy, and connection—the same yearnings that drive us all.”

With the inside eight-page photo section published in black and white, the story of the 2015 capital murder of 96-year-old WW II vet Marty Knell in Texas's semi-tropical Rio Grande Valley just to rob him of the sizeable estate he and his deceased wife had spent decades building, underscores two polar opposites of the human spectrum: total depravity and unbridled heroism. For

most of their lives, people like Monica Melissa Palacios Patterson, who was 47 when she committed the dirty deed, have proven to be failures once they move into their adult years after living a relatively pampered existence during their formative years. Their family members may flourish - business, politics -- but they never seem able to match their success. Instead, they leave in their wake failed business ventures, failed personal relationships. Ironically, in the end, Patterson did turn out to be successful at something. It's just that her two talents were illegal, not to mention immoral - murder and theft. As a side gig, the killer was stealing from the McAllen-based "hospice" where she served as its administrator caring for the dying, using some of the stolen money

for some fun adventures. Like the time she flew to Vegas with her mother-in-law and married lover aboard the same flight, albeit seated in different rows. With two rooms booked at Caesars, life could be a blast. Then someone had to go to the Texas Rangers and blab about the murder, just because she couldn't keep her mouth shut, and Patterson could only watch as her world began to crumble. Oh, what a tangled web we weave...

Graham Boynton's *Wild* is the definitive biography of photographer Peter Beard, a larger-than-life icon who pushed the boundaries of art and scandalized international high society with his high-profile affairs. He was the original 20th century "enfant terrible" with the looks of a Greek god who blazed like a comet across the worlds of art, photography, and fame. The scion of several old WASP fortunes, he was by instinct an adventurer, and the more dangerous the escapade, the better: whether he was hunting big game in Africa, ingesting epic quantities of drugs, or pursuing the most beautiful women in the world.

Among his friends were Jackie Onassis, Andy Warhol, and Francis Bacon. When Peter Beard died in 2020 after mysteriously disappearing from his Montauk home, he remained an enigma to even his closest friends. Journalist and author Graham Boynton was a friend for more than 30 years, spending time with Beard at his bush camp in Africa, in London, and at his Long Island home. From hundreds of Boynton's interviews with Beard's closest friends, former lovers, and fellow artists comes this intimate portrait of a man Sir Mick Jagger called "a visionary."

An enslaved groom named Jarret and a bay foal forge a bond of understanding that will carry the horse to record-setting victories across the South. When the nation erupts in civil war, an itinerant young artist who has made his name on paintings of the racehorse takes up arms for the Union. On a perilous night, he reunites with the stallion and his groom, very far from the glamor of any racetrack. New York City, 1954. Martha

Jackson, a gallery owner celebrated for taking risks on edgy contemporary painters, becomes obsessed with a nineteenth-century equestrian oil painting of mysterious provenance. Washington, DC, 2019. Jess, a Smithsonian scientist from Australia, and Theo, a Nigerian-American art historian, find themselves unexpectedly connected through their shared interest in the horse—one studying the stallion's bones for clues to his power and endurance, the other uncovering the lost history of the unsung Black horsemen who were critical to his racing success. Based on the remarkable true story of the record-breaking thoroughbred Lexington, *Horse* is a novel of art and science, love and obsession, and our unfinished reckoning with racism.
