iPad: The Missing Manual "O'Reilly Media, Inc."

Chance fills every day of our lives and affects every decision we make. Yet, for something woven so closely into the fabric of our being, we are not very good at thinking about uncertainty and risk. In this lively and engaging book, Andrew C. A. Elliott asks why this is so. He picks at the threads and, in showing how our world is built on probability rather than certainty, he identifies five obstacles to thinking about uncertainty that confuse us time after time. Elliott takes us into the casino, but this is not an invitation to gamble. He looks at financial markets, but this is not a guide to investment. There's discussion of health, but this is not a medical book. He touches on genetics and evolution, and music-

making, and writing, because chance is at work there too. Entering many different fields, *What are the Chances of That?* is always following the trail of chance and randomness. One purpose of the book is to go cross-country, to show that there are connected ways of thinking that disrespect boundaries and cut across the domains of finance, and gambling, and genetics, and public health, and creativity. Through it, one visits the vantage points that give a broad view of the landscape and sees how these different areas of life and knowledge are connected - through chance. *What are the Chances of That?* discusses chance and the importance of understanding how it affects our lives. It goes beyond a mathematical approach to the subject, showing how our thinking about chance and uncertainty has been shaped by history and culture, and only relatively recently by the mathematical theory of probability. In considering how we think about uncertainty, Elliott proposes five "dualities" that encapsulate many of the ambiguities that arise.

He must not only get the job done but do so without giving into his insatiable cravings for vodka, weed, and causal, meaningless sex. Nine people die under bizarre circumstances. A handful of people get screwed (in more ways than one). The story takes humorous and philosophical twists and turns, leaving you laughing at the murderous tactics some folks are willing to use to get ahead in this world. Throughout the story, there runs an undercurrent of reflection, hope, and redemption for Tony, who strives to right his wrongs, and Jim der Bacon, accused of murder yet able to focus on consciously evolving his own consciousness. For Tony, redemption comes through writing and his new awareness that one can consciously evolve their consciousness. *Romancing the Absurd* is the final result of Tony's studies, hard work, and shocking struggles with himself, others, and the

universe at large. Based on real-life venture capitalists, businessmen, and lawyers, the story is structured using reinvented reality.

This book is a translation of Petrus Hispanus' 13th century text. Hispanus was a contemporary of linguistic theorists called 'Modistae' after 12th to 14th century writings entitled *De Modis Significandi*. Their concerns involved differences between the way things are in themselves, how we understand them, and how grammatical conventions require us to communicate about them. iPod & iTunes For Dummies, Book + DVD Bundle WestBow Press

This book will help the private investigator reevaluate business opportunities and identify goals for the

future. The world of the private investigator is constantly changing due to the introduction of various legal requirements that have restricted or eliminated some of the methods available for obtaining information such as the various privacy protection acts. Additionally, most private investigators have restricted their business activities to a response mode; that is, conducting inquiries after an incident has occurred. Their preventive skills have been ignored to their financial detriment. As restrictions continue to be placed on private investigative activities, private investigators need to reevaluate personal skills and discover how these may relate to expanding their services. This book provides the necessary information for learning about these new skill areas and provides the necessary strategies for their implementation. Some of the topics cover crime and loss prevention strategies, risk assessment, and prevention strategies. Many other topics are also covered such as that of the expert witness. This is not a difficult status to attain but requires unique skill sets and experience and can be highly lucrative. Crises management is another skill set that is explored here. It not only identifies potential risk areas through risk assessment activities but includes development and implementation of preventive measures and shows how the private investigator can assist in restoring business operations to their normal levels. This book will be of enormous help to private investigators who wish to develop these sophisticated investigative business skills and preventive services in order to meet these challenges for surviving and thriving in this modern age industry.

God wants to show you something every day; don't miss it! Maybe it would help to get some glasses or maybe a friend who knows the way. Life has often been referred to as a journey, and as the author often finds his daily journey deep in the timbered swamps of the Atlantic coastal plain, that is where he looks for God's fingerprints. "He is a master storyteller. Like his Master before him, he is a 'parable caster.' That Greek word, 'parable' comes from two root words: one meaning 'to be similar' and the other meaning 'alongside.' Brad's Master has gifted him with the ability to cast alongside us some stories that help us gain a better glimpse of who we are, who Jesus is, and who we can be as we follow him in this journey of life. In other words, Brad helps our souls avoid the snares of the enemy and helps us avoid all the side roads that our flesh wants to veer onto. Brad takes us into the swamp in order to lead us to the Savior. It doesn't make sense, but neither does a Jewish carpenter ruling the world. Read along and enjoy the ride!" — Reverend David Kizziah; International Mission Board; Lusaka, Zambia.
