And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage

from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. \*Includes reading group guide\*

In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love. *The Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has

come to set her free.

"Ever since the creators of the animated television show *South Park* turned their lovingly sardonic gaze on the massively multiplayer online game *World of Warcraft* for an entire episode, *WoW*'s status as an icon of digital culture has been secure. *My Life as a Night Elf Priest* digs deep beneath the surface of that icon to explore the rich particulars of the *World of Warcraft* player's experience." —Julian Dibbell, *Wired* "World of Warcraft is the best representative of a significant new technology, art form, and sector of society: the theme-oriented virtual world. Bonnie Nardi's pioneering transnational ethnography explores this game both sensitively and systematically using the methods of cultural anthropology and aesthetics with intensive personal experience as a guild member, media

teacher, and magical quest Elf." —William Sims Bainbridge, author of *The Warcraft Civilization* and editor of *Online Worlds* "Nardi skillfully covers all of the hot button issues that come to mind when people think of video games like *World of Warcraft* such as game addiction, sexism, and violence. What gives this book its value are its unexpected gems of rare and beautifully detailed research on less sensationalized topics of interest such as the *World of Warcraft* player community in China, game modding, the increasingly blurred line between play and work, and the rich and fascinating lives of players and player cultures. Nardi brings *World of Warcraft* down to earth for non-players and ties it to social and cultural theory for scholars. . . . the best ethnography of a single virtual world produced so far." —Lisa Nakamura, University of Illinois *World of Warcraft* rapidly became one of the most popular online world games on the planet, amassing 11.5 million subscribers—officially making it an online community of gamers that had more inhabitants than the state of Ohio and was almost twice as populous as Scotland. It's a massively multiplayer online game, or

MMO in gamer jargon, where each person controls a single character inside a virtual world, interacting with other people's characters and computer-controlled monsters, quest-givers, and merchants. In *My Life as a Night Elf Priest*, Bonnie Nardi, a well-known ethnographer who has published extensively on how theories of what we do intersect with how we adopt and use technology, compiles more than three years of participatory research in *World of Warcraft* play and culture in the United States and China into this field study of player behavior and activity. She introduces us to her research strategy and the history, structure, and culture of *World of Warcraft*; argues for applying activity theory and theories of aesthetic experience to the study of gaming and play; and educates us on issues of gender, culture, and addiction as part of the play experience. Nardi paints a compelling portrait of what drives online gamers both in this country and in China, where she spent a month studying players in Internet cafes. Bonnie Nardi has given us a fresh look not only at *World of Warcraft* but at the field of game studies as a whole. One of the first in-depth studies of a game that

has become an icon of digital culture, My Life as a Night Elf Priest will capture the interest of both the gamer and the ethnographer. Bonnie A. Nardi is an anthropologist by training and a professor in the Department of Informatics in the Donald Bren School of Information and Computer Sciences at the University of California, Irvine. Her research focus is the social implications of digital technologies. She is the author of *A Small Matter of Programming: Perspectives on End User Computing* and the coauthor of *Information Ecologies: Using Technology with Heart* and *Acting with Technology: Activity Theory and Interaction Design*. A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste

better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

In Problem Solving, Decision Making, and Professional Judgment, Paul Brest and Linda Hamilton Krieger have written a systematic guide to creative problem solving that prepares students to exercise effective judgment and decision making skills in the complex social environments

in which they will work. The book represents a major milestone in the education of lawyers and policymakers. Developed by two leaders in the field, this first book of its type includes material drawn from statistics, decision science, social and cognitive psychology, the “judgment and decision making” (JDM) literature, and behavioral economics. It combines quantitative approaches to empirical analysis and decision making (statistics and decision science) with the psychological literature illustrating the systematic errors of the intuitive decision maker. The book can stand alone as a text or serve as a supplement to a core law or public policy curriculum. Problem Solving, Decision Making, and Professional Judgment: A Guide for Lawyers and Policymakers prepares students and professionals to be creative problem solvers, wise counselors, and effective decision makers. The authors' ultimate goals are to help readers “get it right” in their roles as professionals and citizens, and to arm them against common sources of judgment error.
